HOW THE UNSUSPECTING ARE OFTEN GULLED.

It is possible that money dipped in a bounteous supply of printer's ink, is to be used to teach false ideas.

Why is it that such persistent Anethemas should all at once be burled against the use of "Potash and Potash Mixtures ?" Those who insist that Potash is a poison,do so because that is the way they have of fighting B.

B B., as the latter contains potash properly combined. Opium, morphice, strychnine, aconite, whiskey, are all deadly poisens, and are daily destroying the lives of people, and why do not

these men cry out against them? It is because there is no money in sight to do so. Iodide of Potash, in proper combination is regarded by the medical profession as the quickset, grandest and most powerful blood remedy ever known to man. Those who believe in revealed combinations and Indian toolishness are urely in a condition to become rather cranky in their ideas of any time. We assert understandingly that Potash as used in the manufacture of B. S. B., is not a polson, and the public need not place any confidence in assertious to the contrary. Why is it that in one thousand letters which we receive we nover hear a word against its use ? The truth is, B. B. B. is worklug such wonders in the cure of all bleed poisons, scrofula, rheumatism, cararrh, etc., that sons, scrolula, rheumatism, cararrh, etc., that others are trembling in their boots, and cry aloud, "poison," "traud," because they fear its triumphal march. Do not be deceived, but go right stong and call for it B. B. and be cured. It is making five times more cures in Atlanta than all other blood remedies combined. We don't say that others are poisons or frauds: we are not that easily alarmed, but we say that ours is the best, and we have the proof. Send for our 32-page book free and be convinced.
